

AVAIRE ACRYLIC GROUT INSTRUCTIONS

THINGS TO KNOW

- Avaire Flexible Grout comes ready to use right out of the bucket.
- For interior use only.
- Do not use in steam rooms, shower pans, areas exposed to prolonged water exposure or underwater.
- Do not grout the perimeter expansion space.
- Do not grout when temperature is below 50° F (10° C).
- Protect grout from freezing.

ITEMS NEEDED

- Margin trowel
- Rubber grout float
- Sponge
- Bucket of water
- Dry cloth

COVERAGE

Avaire 6"x6" Tile	50 sq ft
Avaire 12"x12" Tile	100 sq ft
Avaire 18"x18" Tile	150 sq ft

SURFACE PREPARATION

- Conduct a final inspection, verifying:
 - >all tabs are fully engaged
 - >all grout joints are properly aligned
 - >grout joints are clean, dry, and free from debris
 - >perimeter expansion space is maintained

GROUT APPLICATION/ INITIAL CLEANUP

- Using a margin trowel, gently stir to ensure an even consistency.
- Holding a rubber grout float at a 45° angle, force grout diagonally into joints ensuring joints are completely filled.
- Remove excess grout using edge of float held at a 90° angle.
- Work on an area about 6 to 12 square feet at a time.
- Shaping joints and clean-up can begin immediately using a damp, small pore, grout sponge in a circular motion. Then, using the damp sponge, wipe diagonally to remove remaining grout film. Rinse sponge after each pass, and change water frequently.
- Avoid using too much water during the cleaning process.
- Clean tools and hands with water before material dries.

FINAL CLEANUP/ LONG-TERM CARE

- Wait 3-4 hours before removing haze from tile surface with a soft, dry cloth. Or, use a damp cloth with a mild cleaner if needed.
- Drying Time: 24 hours.
- If a dry grout haze exists after 24 hours, it may be removed with a sulfamic acid cleaner or grout haze remover.
- Sealing the grout is not necessary.
- For long-term care, use a mild cleaner.
- Avaire Flexible Grout adheres to itself. Repairs can be made by simply grouting over the affected areas.

CAUTION

- Contains Petroleum Distillates. If ingested, do not induce vomiting. Call a physician immediately. Use with adequate ventilation. Non-flammable.
- KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY. KEEP FROM FREEZING.
